Actimove® GenuMotion

A revolutionary concept.

Actimove® GenuMotion knee support features an innovative knitting structure combining excellent fit with graduating compression to promote improved blood circulation and lymphatic flow for better pain relief.

Indications

- All types of gonarthrosis
- Minor instabilities of the knee joint
- Minor injuries of the meniscus
- Weak ligaments in the knee joint area
- Postoperative care, e.g. after knee arthroscopy
- All types of gonarthrosis/ acute inflammation of the joint

Comfort

- Pressure-free cuffs eliminate constriction
- Specially designed Motion Comfort Zone in the popliteal area
- 3D anatomic fit for optimum, long-lasting support and comfort
- Highly breathable and moisture-absorbent fabric for dry, perspiration-free skin

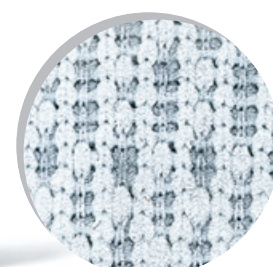

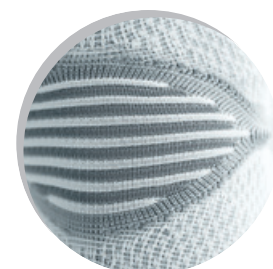

Stabilisation

- Increased stability for maximum safety while moving the knee
- Highly elastic insert massages the patella and promotes the reduction of swelling
- Anatomically integrated spiral stays support a natural gait
- Highest therapeutic compression and optimal comfort

Design

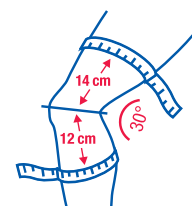

- Asymmetric helix design for self-explanatory positioning
- New visual concept communicating dynamic flexibility
- Easy-to-wear support enhances patient compliance
