

Actimove[®]

TaloMotion

- Special heel area
- Anatomically shaped inserts
- Pressure-free cuff area

A new generation of ankle support

Feel good. Move better.

Actimove® TaloMotion

A dynamic concept.

Actimove® TaloMotion ankle support features an advanced knitting structure combining optimal therapeutic compression, stability and comfort. It promotes improved blood circulation and lymphatic flow, reducing local edemas and swelling for better pain relief.

Indications

- Postoperative or posttraumatic irritation
- Joint effusions and swelling
- Arthrosis and arthritis
- Tendomyopathies
- Slight ligament instabilities

Stabilisation

- Optimal gradient compression promotes the healing process
- Anatomically shaped inserts for targeted pressure and pain relief
- Improved stability for maximum safety while moving the ankle

Comfort

- Specially designed heel area for enhanced stability
- Pressure-free cuffs eliminate constriction
- Highly breathable and moisture absorbent fabric for dry, perspiration-free skin
- Seamless terry cloth liner for cotton-like softness and maximum comfort
- 3D anatomic fit for enduring comfort and strong support

Design

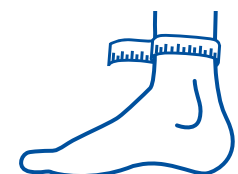

- Dynamic helix design communicating flexibility and function
- Makes it easy to understand how to position the bandage
- Attractive colour selection enhances patient compliance
